

Turtles from walnut shells

Materials:

1/2 walnut shell, tracing paper, pencil, piece of brown paper or cardboard, scissors, glue, black marker

01 step:

Using the tracing paper and pencil, trace the turtle on to the paper and cut it out carefully.

02 step:

Brush some glue on the rim of the walnut shell and place it on the paper turtle. The pointed end is at the back, the rounded end is at the front.

03 step:

Finish it by drawing two eyes and a friendly mouth on the paper head using the black marker.
